BC Fire Code 2018 The BC Fire Code (BCFC) is a provincial regulation containing technical requirements for the construction, use or demolition of buildings and facilities and the design, construction and use of specific elements of facilities related to certain fire hazards, and protection measures for the current or intended use of buildings.. International Codes (I-Codes) Every three years the ICC works to publish a new set of I-Codes that can be adopted and modified by each state.. Most states follow a three-year code adoption cycle in order to keep up-to-date with the ICC revision process.
